

VG10-B21A

Smart Management Center

VG10-B21A is a smart management center for video intercom system. It provides video intercom calling, a maximum of 8 channels of IP camera video display, alarm notification to other indoor monitor, and door release control.

VG10-B21A is based on Android 4.0 operating system and features 10.1-inch LCD color touch screen for clear operation menu. This management center also supports 32GB TF card and can store up to 60 call logs.

VG10-B21A enables the concierge to send text messages, such as weather forecast, to the apartment residents. It can control the main entrance door unlocking.

Features

- 10.1-inch color touch screen
- Android 4.0 for smooth operation
- Send alarm notifications to indoor monitors and management center
- Support storing up to 60 call logs
- Send and receive text messages (alphabetical letters, numbers and symbols) to indoor monitor
- Powered by PoE (IEEE802.3af) or power adapter (DC12V/2A)
- Support SIP 2.0 protocol, easy integration with other SIP devices
- Maximum support 8 channels of IP cameras video display

Specifications

Physical		Display	
System	Android 4.0	Display	10.1-inch TFT Color LCD
RAM	512 MB	Screen	Capacitive touch screen
ROM	4 MB	Resolution	1024 x 600
Front Panel	Plastic	Audio	
Power Supply	PoE (IEEE802.3af) or DC 12V/2A	Audio Codec	G.711
Standby Power	3 W	Echo Cancellation	Yes
Rated Power	10 W	DTMF	RFC2833
Camera	0.3MP, CMOS	Microphone	Built-in microphone
SD Card Port	1 (max. 32GB)	Speaker	Built-in speaker
Call Log	up to 60 call logs	Networking	
Ethernet Ports	1 x RJ45, 10/ 100Mbps self-adaptive	Protocol	SIP Version 2.0, UDP, TCP, RTP, RTSP, NTP, DNS, HTTP, DHCP, IPV4, ARP
Installation	Desktop	Video	
Dimension	303 * 195 * 35 (mm)	Video Codec	H.264
Operating Temperature	-10°C to +55°C	IPC video analytic	Support max. 8 channels display
Storage Temperature	-10°C to +60°C		
Operating Humidity	10% to 90% (non-condensing)
