

BP2-4 BATTERY DRESS PLATE

Install BP2-4 Battery Plate in front of the battery compartment in NFS2-640/E installations and provides Protected Premises Unit labels.

The BP24 requires a regulated charging source (provided by the CH100 or CH200 regulator connected to an unregulated solar panel or a wall charger). The BP24 includes a 12 in. cable that terminates in a connector for attaching the battery to a CH100 or CH200 regulator. The BP24 is shipped with a bracket that secures the BP24 to an enclosure back plate. An ENC16/18 enclosure is recommended.
