

# D1255RB Fire Keypad

www.boschsecurity.com

**BOSCH**  
Invented for life

The D1255RB Fire Keypad is a full-function system controller and annunciator. This SDI bus compatible device works with the Bosch Security Systems, Inc. GV4 control panels, GV3 control panels, and GV2 control panels (firmware version 7.04 and higher). The illuminated keypad has a 16-character vacuum fluorescent display (VFD) with each character a 14-segment unit and a sounder that emits distinct condition tones.

## Functions

### Display

The display uses words, numbers, and symbols to show the status of the fire system. When several events occur, each event is shown in order of priority followed by the time of occurrence. In conjunction with the 16-character VFD, four LEDs provide the following system status indications:

- Fire
- Silenced
- Supervisory
- Trouble

- ▶ Compatible with Bosch GV4 control panels, GV3 control panels, and GV2 control panels (firmware version 7.04 and higher)
- ▶ Built-in multi-tone sounder
- ▶ Easy to read vacuum fluorescent display (VFD) shows complete system status in English
- ▶ Easy system control with menu keys
- ▶ User controlled brightness and volume

### Keys

The keypad has ten numeric keys and five function keys. Use the [COMMAND] key with the numeric keys to perform a function. Use the [ENT] key or [YES] key to enter your passcode. When pressed, each key emits light and a muted beep.

### Audible Tones

The sounder emits distinct warning tones. You can adjust the volume or use a passcode to silence the tone. The tones include:

- Fire signal: pulsed high-pitched bell tone during fire alarm
- Invalid key buzz: buzz tone when invalid key is pressed
- Keypad encoding tone: muted beep tone as each key is pressed
- Trouble buzz: two-tone warble during a trouble event

## Certifications and approvals

Region	Certification
USA	FM
	UL UOXX: Control Unit Accessories, System (ANSI/UL 864)

### Installation/configuration notes

#### Compatible Control Panels

The D1255RB Fire Keypad is compatible with the GV4 control panels<sup>1</sup>, GV3 control panels<sup>1</sup> and the GV2 control panels<sup>1</sup> with firmware version 7.04 or higher. The keypad will work with G Series Control Panels prior to GV2 v7.04; however the LEDs will not operate. <sup>1</sup> The D7212GV4, D7212GV3, and D7212GV2 are not listed for commercial fire applications.

#### Mounting Considerations

The keypad is a low profile, surface-mounted unit molded in durable red plastic with three mounting holes in the base that allow secure, correct positioning during installation. Protect the surface-mounted keypad by mounting it to a D56 or D56R Conduit Back Box. For desktop applications, the keypad can be mounted to a D55 Desk Stand.

#### Notice

Do not install the keypad in direct sunlight. This damages the module components and makes the display less visible. Do not mount in wet or moist locations.

#### Wiring Considerations

The keypad connects to the control panel for data and power through a standard four-wire flying lead cable. For field wiring use 0.8 mm (22 AWG) or 1.2 mm (18 AWG) wires. Resistance cannot exceed 25 Ω. The field wiring connects to a four-wire harness supplied with the unit.

#### Notice

Use shielded cable where excessive electromagnetic interference is a problem.

### Parts included

Quantity	Component
1	Keypad
1	Hardware pack
1	Literature pack

### Technical specifications

#### Environmental Considerations

Relative Humidity:	5% to 85% non-condensing at +30°C (+86°F)
Temperature (operating):	0°C to +50°C (+32°F to +122°F)

#### Mechanical Properties

Color:	Red and gray
Dimensions:	11.7 cm x 21 cm x 2 cm (4.6 in. x 8.2 in. x 0.8 in.)
Material:	CHI MEI POLYLAC PA757 ABS with UV Stabilizer. UL94-HB Fire Rated

#### Power Requirements

Current:	104 mA minimum, 225 mA maximum
Voltage:	12 VDC nominal supplied by the control panel

#### Trademarks

Due to the nature of this material, this document refers to hardware and software products by their trade names. In most, if not all cases, these designations are claimed as trademarks or registered trademarks by their respective companies in one or more countries. It is not Bosch's intent to use any of these names generically. The reader is therefore cautioned to investigate all claimed trademark rights before using any of these names other than to refer to the product described.

POLYLAC is a registered trademark of CHI MEI Industrial Corporation, LTD.

Plexiglas is a registered trademark of Arkema.

### Ordering information

#### D1255RB Fire Keypad

Red and gray case.  
Order number **D1255RB**

#### D55 Keypad Desk Stand

Portable desk stand in smoke colored Plexiglas.  
Order number **D55**

#### D56 Surface Mount Conduit Box

White surface mount box.  
Order number **D56**

#### D56R Red Surface Mount Conduit Box

Red surface mount box.  
Order number **D56R**
