D7044 Multiplex Single-input Module

- ▶ Use with D7024, DS9400M, or FPD-7024 Addressable FACPs
- ▶ Fits into a standard double-gang or four-inch square back box
- ▶ Easy addressing using rotary switches
- ▶ Low current draw
- ▶ UL Listed

The D7044 Multiplex Single-input Module connects a normally-open (NO) contact to the multiplex bus of a D7024, DS9400M, or FPD-7024 Addressable Fire Alarm Control Panel (FACP). Use the D7044 supervised input in a Class B configuration. All operating power for the input module is drawn from the FACP.

Note D7024 and DS9400M are **not** listed under UL864, 9th edition.

Rotary switches allow convenient address setting.

An on-board status LED on the module indicates normal, alarm, and trouble conditions and is visible on the module or on an attractive, low-profile faceplate.
