

ELECTRICAL CHARACTERISTICS

MODEL NO.: SC-03

Outdoor Strobe Siren for any Security System

Operation Voltage	12V DC (Nominal), 9V DC (Min) – 15V DC (Max.) With reverse polarity protection
Power	20W
S.P.L. (at onemeter)	110± 3 dB (at 12V DC)
Terminal block	Siren/Horn/Strobe/Tamper/Spare
Flash frequency	60-80 times/minute
Tone	One tone/Six tone
Operation Temperature	-10°C Min. to + 60°C Max. (10 minutes)
Storage Temperature	-40°C Min. to + 80°C Max.
Housing Material (A.B.S.)	U/L recognized 105°C (U/L 94HB)
Length of Cord (24 AWG)	400mm ± 20mm (UL1007 AWG 24)
Customized specifications are welcome
