

The Smoke Alarm SF202 is a highly reliable safety device designed to detect the presence of smoke in residential and commercial settings. Using advanced photoelectric sensing technology, it quickly and accurately detects smoldering fires, providing early warning to occupants. This alarm is equipped with a loud and distinct alarm sound to ensure prompt notification in the event of a fire emergency. With its compact design and easy installation, the SF202 seamlessly integrates into any environment. Additionally, it features low battery alerts and a test button for convenient maintenance checks, ensuring continuous protection against the dangers of smoke and fire.

Main Features

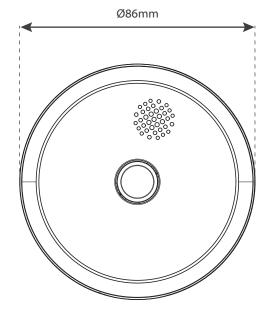

- Advanced photoelectric sensing technology
- Deactivate through app or pressing button on detector
- Audible and visible alarm signals
- Autonomous operation
- · Self-testing mechanism
- · Easy installation

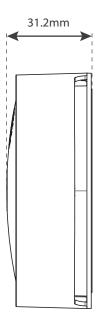

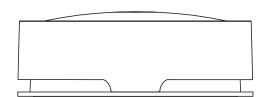

Brief Product Specifications

Frequency range	868 MHz
RF range (open space)	Up to 400m
RF protocol	U-Net 5.0
Battery life	Max. 5 years
Battery type	CR123A x 1

Operation temperature	0 - 50°c
Operating humidity	95% RH max
Dimension (mm)	85(W) x 85(D) x 27(H)
Weight	97g(include battery)
