

Omega™ HP for Slurry Lined EPDM

Omega HP Air Vent is based on the design of the traditional Omega Model, but with specific modifications for Slurry.

The Omega™ HP Lined EPDM air vent is designed for most severe conditions, including slurry and sea water. Common uses for Omega™ HP are desalination process, chemical waste, sand pulp, dewatering sewage, mining slurry, general pulp, and treatment plants.

Design: ASME B16.34 ASME B16.5 ASME B31.3

Features:

- A) **Suitable for extreme conditions:** mining slurry, sea waterlines, and sewage
- B) All wet parts are lined EPDM for high abrasive media
- C) **Appropriate for** fluids with high concentration of solids particles
- D) **Smooth cage outside of the float,** keep floating ball moving in specified guide rail
- E) **Superior venting** and suction capacity compared with common two holes air vent
- F) **Reduces** pressure drop
- G) **Body material made** in Cast Steel A216 WCB + Epoxy Paint
- H) **Floating ball** and other metal parts made in Stainless Steel SS316L CF3M
- I) **Maintenance** can be easily performed from the top without removing the air valve from the pipe
- J) **Coating suitable** for highly aggressive environments (Epoxy)
- K) **Rating** Class 600 available upon request

Clase 300

Clase 600

Technical Data

1. Size range: NPS 2"~8"
2. Pressure ratings: 150LB / 300LB / 600LB
3. Working temperature: -29ℳ ~ +120ℳ
4. Suitable Medium: fluids with high concentration of solid particles like mining Slurry or Sewage
5. Body Material: ASTM A216 WCB + Epoxy
6. Lined: EPDM / Ebonite
7. Trim Material: A276 SS316L CF3M
8. Seat: EPDM

Performance Standard

- 1.Design & Manufacture standard as to: ASME B31.3 ASME B16.34
- 1.Height dimension (H) standard as to: MFR-STD
- 3.Flange dimension conforms as to: ASME B16.5 / BS EN 1092
- 4.Testing And Inspection as to: API 598
- 5.Pressure-temperature conforms as to: ASME B16.34
6. Anti Corrosion as per NACE MR-0175(2002) requirement

Part List:

Omega™ HP Air Vent Lined EPDM
Rating Class 150 and 300

No.	Part Name	Materia	Standard
1.	Cap	F304	ASTM A182
2.	Bolt	B7 (Galvanized)	ASTM A193
3.	Nut	2H (Galvanized)	ASTM A194
4.	Cover	C.S.	ASTM A105
5.	Seat	EPDM	BNS-D00040
6.	Protective Bushing	SS316L	ASTM A276
7.	Floating Ball	SS316L	ASTM A276
8.	Body Lined	Rubber	EPDM / Ebonite
9.	Body	C.S.	ASTM A216 WCB
